Narendra Chitteti

Mobile: 9019580482

E-mail: narendrachitteti800@gmail.com

Professional Summary:

- Having around **2.5 years of experience** in application development, maintenance, and support of applications.
- Expertise in building modern web applications using **React.js**, **Node.js**, **MongoDB**, and **Express** (**MERN** stack).
- Strong experience with **JavaScript** (**ES6+**), **React**, **Redux**, **and Node.js** for building scalable, high-performance web applications.
- Proficient in developing and consuming **RESTful APIs**, integrating third-party services, and ensuring responsive design for web applications.
- Working knowledge of UI technologies like **HTML5**, **CSS3**, **Bootstrap**, **Tailwind css and Material UI**.
- Solid experience with state management using Redux and React Context API.
- Familiar with cloud platforms like AWS and container technologies like **Docker**.
- Extensive knowledge of **Git** for version control and experience in **continuous** integration/deployment (CI/CD) pipelines using **Jenkins**.

Academic Details:

• Bachelor of Technology in Electrical and Electronics from Siddartha Educational Academy Group of Institutions, Tirupati.

Professional Experience:

Software Engineer at Digitory Solutions Pvt Ltd, Bangalore (September 2022 - February 2025)

Technical Skills:

- Languages: Java, JavaScript (ES6+)
- Frontend: React, Redux, HTML5, CSS3, Tailwind Css, Bootstrap, Material UI
- Backend: Node.js, Express.js, REST API
- Database: MongoDB, PostgreSQL
- Version Control: Git, GitHub
- Cloud Services: AWS
- **CI/CD Tools:** Jenkins, Docker
- Build Tools: NPM
- Operating Systems: Windows, Linux
- Containerization: Docker
- Project Management: Agile Scrum

Significant Projects Handled:

Social Media Analytics Dashboard

Client: HubSpot Marketing Solutions

Role: Software Developer

Technology: React, Node.js, Express, MongoDB, REST API, AWS

Description:

Developed a real-time analytics dashboard for tracking **social media engagement, audience sentiment, and campaign performance** across platforms like **Facebook, Twitter, and Instagram**. This platform helped marketing teams analyze key performance indicators (**KPIs**) and generate reports based on real-time data.

Roles and Responsibilities:

- Designed and implemented an intuitive user interface using React and Material UI.
- Built backend services using Node.js and Express for managing real-time data processing.
- Developed and consumed **REST APIs** to fetch and display social media analytics.
- Integrated third-party APIs (Facebook Graph API, Twitter API) for retrieving data.
- Ensured application responsiveness and optimized performance for large datasets.
- Collaborated with the **QA team** to conduct **unit testing and end-to-end testing**.
- Deployed the application to **AWS** and managed cloud infrastructure.
- Participated in sprint planning and Agile development processes.

Farm E-Store

Client: Farm E-Store Pvt Ltd Role: Full-Stack Developer

Technology: React, Node.is, Express, MongoDB, Redux, AWS,

Description:

Developed an e-commerce platform providing chemicals, fertilizers, insecticides, and other agricultural essentials to farmers. The system includes real-time inventory management, secure payment gateway integration, and an intuitive user interface.

Roles and Responsibilities:

- Designed a responsive UI/UX using React, Redux, and Material UI.
- Developed **REST APIs** using **Node.js and Express** for handling user authentication, product management, and order processing.
- Implemented Razorpay Payment Gateway for secure transactions.
- Created MongoDB aggregation queries for optimized search and product filtering.
- Integrated AWS services for hosting and cloud storage.
- Managed **state efficiently using Redux** to ensure seamless performance.
- Deployed the application on **AWS and Vercel** for high availability.

Soft Skills:

- Strong problem-solving and analytical skills.
- Excellent **collaboration** and **team management**.
- Effective **communication** and **presentation skills**.
- Quick learner and adaptable to new technologies.
