# Narendra Chitteti

**Mern Full Stack | Content Creation**

chittetinarendra2000@gmail.com | +91 8008840502 | DOB - 15 Jun, 2000

## SKILLS

### PROGRAMMING

Languages

- Advance: JavaScript, Java
- Intermediate: C,
- Novice: Python, Php

Tools

• GIT • Vercel

Frameworks

- ReactJs
- ExpressJs

Technologies

- HTML • CSS • Scss
- SQL • MongoDB
- AWS services

### OTHERS

- Content Creation
- Video Editing
- Public Speaking
- Exploring new technologies

## EDUCATION

### B.Tech, EEE

Siddartha Educational Academy Group of Institutions

2019-22 | Tirupati CGPA: 7.2

### Diploma, EEE

Govt Polytechnic Chandragiri

2016-19 | Chandragiri Percentage: 71.57%

### SSC

Sri Sai Brilliant EM High School

2015-16 | Tirupati CGPA: 8.5

## LANGUAGES KNOWN

• English • Hindi • Telugu

## INTERNSHIP

**Java Programming**

By CODTECH IT SOLUTIONS

## EXPERIENCE

**Matrical Technologies**   Full-time | May 2022 - Present | Bangalore, India

**MERN FULL-STACK**   ReactJs | NodeJs | MongoDb | PostgreSQL

- Developed and maintained web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Collaborated with cross-functional teams including designers, product managers, and backend developers to deliver high-quality software solutions.
- Implemented responsive user interfaces using React.js to enhance user experience and engagement.
- Designed and developed RESTful APIs using Node.js and Express.js for seamless interaction between front-end and back-end systems.
- Utilized MongoDB and PostgreSQL databases to store and retrieve application data efficiently.
- I emphasize crafting clean, maintainable, and well-documented code, adhering to industry best practices and coding standards for enhanced project efficiency and user experience.
- Conducted code reviews to ensure code quality, performance, and security.

## PROJECT(S)

**Hospital Management System**   ReactJs | MongoDB | ExpressJs

**Problem:** In my team everyone faced difficulty for posting and fetching data for particular member based on object ID

- Designed RESTful API endpoints in Express.js for posting and fetching member data efficiently.
- Optimized MongoDB queries to retrieve data based on object ID, ensuring fast performance.
- Implemented robust error handling and validation mechanisms for data integrity and security.
- Secured endpoints with authentication, allowing authorized access to member data.

**Transmaa project**   React | NodeJs | MongoDB

- Designed an intuitive user interface with React.js, improving navigation and operational efficiency for end-users.
- Architected and maintained the backend API, ensuring robust data interaction and security.
- Engineered a comprehensive role-based access control system within the Master section to manage credentials for Truck staff and Customer staff effectively.
- Engineered a logistics-based web application using the MERN stack, enhancing operational efficiencies and user interface for logistics management.

## ACHIEVEMENTS

**Others (NCC "C" certificate)**   By Director General, NCC

## CERTIFICATIONS

**Java FullStackDevelopment**   By JSPIDERS
**Python Basic programs**   By FutureTech
**HTML, CSS, JavaScript, ReactJs Course**   By Udemy
**Webinar on Data Structures**   By Maang Careers
